Weekly assignment

1. An annual report is a yearly financial health book which shows the company's operational activities and financial performance

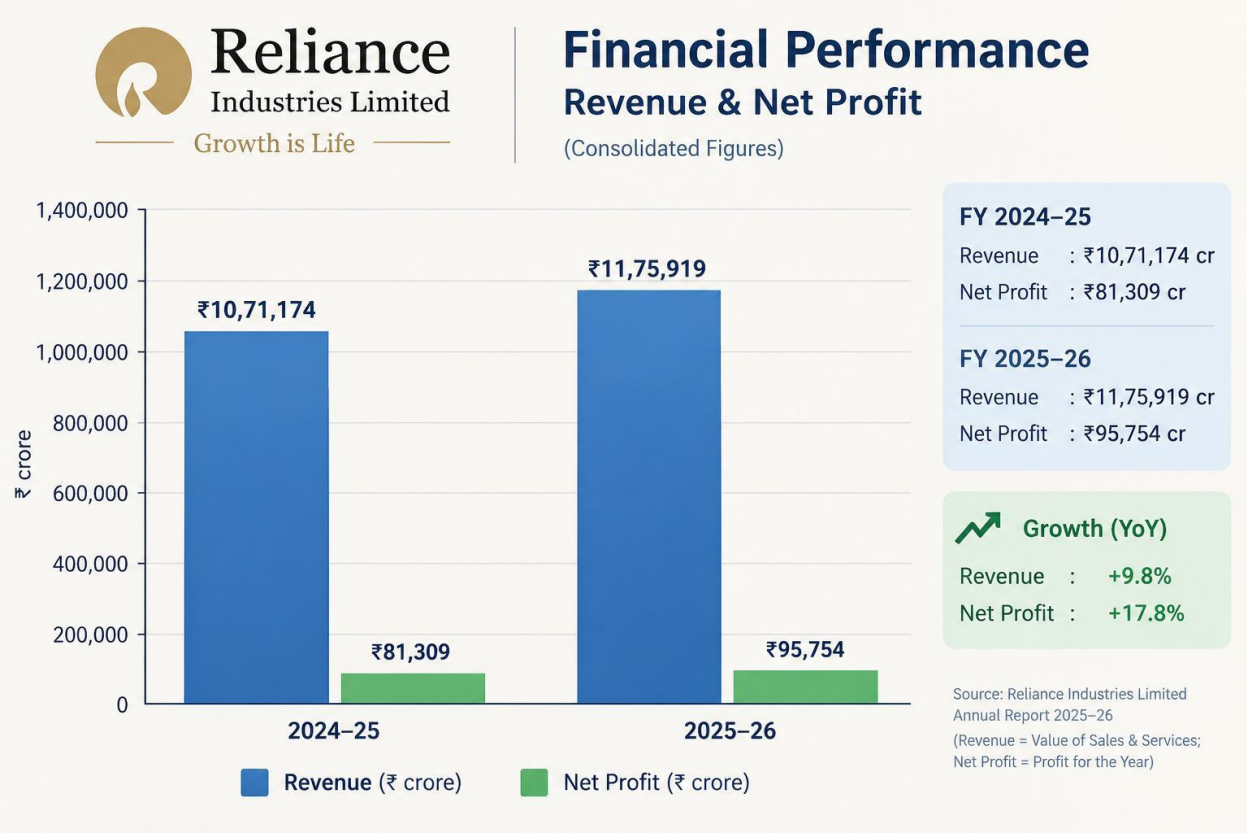

2. Annual report is important for an investment banker because it helps investors to study and understand the company, identify risks and provide suggestions to clients on investments and fundraising.

3. Revenue and net profit of reliance industries for the last two years. (Approx. Amounts)

Year	Revenue (Rs in crores)	Net profit (Rs in crores)
2024-25	₹10,71,174 crore	₹81,309 crore
2025-26	₹11,75,919 crore	₹95,754 crore

Revenue increased by about 9.8%.

Net profit increased by about 17.8%.

4. For Reliance Industries Limited (RIL), FY 2025–26, the official annual report gives the following ratios on a standalone basis:
    1. Return on Equity (ROE)

    Formula: ROE = PAT ÷ Average Net Worth × 100

    = ₹43,851 cr ÷ ₹5,54,661 cr × 100

    = 7.91% ≈ 8.5% (reported)

Debt–Equity Ratio

Formula: Debt ÷ Equity
= ₹2,31,381 cr ÷ ₹5,66,235 cr
= 0.41 : 1

Final:

ROE: 8.5%
Debt–Equity Ratio: 0.41 : 1
